

Brenda POLLAGBA

Passionate fullstack developer, I believe the web should be as beautiful as it is functional. I design polished and accessible interfaces, and I am seeking an apprenticeship to deepen my technical skills and grow toward application security.

Apprenticeship Rhythm

3 weeks in company

1 week at school

Starts in september 2026

Technical Skills

Linux

Git

GitHub

VSCode

Postman

JavaScript

Node.js
+ express

React

HTML

CSS

TailwindCSS

Prisma

PostgreSQL

Supabase

Zustand

Junior Developer

Seeking apprenticeship or internship

Education

- 2027 Bachelor in Cybersécurité (RNCP6 1st year) - ESGI (in progress)
- 2025 Web & Mobile Developer Training (RNCP5 frontend) - Holberton School
- 2023 Applied Foreign Languages (L2) - Université Jean Jaures (UT2J)
- 2019 High School Diploma – Economics & Social Sciences - Lycée Jules Michelet

Experiences

10/2024

VERSATILE SALES ASSISTANT (PAUL)

07/2023

- Sales and cash register operations in-store
- Team collaboration to ensure high-quality customer service

05/2023

CREW MEMBER (BURGER KING)

05/2021

- Worked in a fast-paced and high-pressure environment
- Followed procedures to ensure efficiency and quality

Projects

IROKAMI (2 MONTHS)

- Designed and developed a fullstack application end-to-end, from backend to deployment
- Built a REST API with Node.js/Express, JWT authentication and PostgreSQL database via Prisma
- Crafted a React interface with rich text editor (TipTap), state management (Zustand), queries (TanStack Query), animations (Framer Motion) and styles (TailwindCSS)
- Integrated the Gemini API to automatically generate quizzes, flashcards and summaries from notes
- Deployed in production : backend on Railway, frontend on Vercel

ATHLIA (3 MONTHS)

- Developed all React frontend components of the application
- Implemented the complete client-side authentication flow (JWT)
- Designed mockups and defined the user experience
- Presented the project to a technical jury and justified technological choices

HBNB - CLONE D'AIRBNB (1 MONTH)

- Full-stack web application simulating Airbnb: Python console, REST API, database, and user interface
- Implemented MVC architecture, Facade pattern, unit tests, and UML documentation
- Technologies: Python, Flask, MySQL, HTML/CSS/JS

Languages

French (native), English (B2)

Interests

Reading, Manga, Music, Pro Wrestling
